# Must Love Lemons Catering

**GRAZING BOARDS & SHARING PLATTERS**

Generous, colourful food made for the middle of the table and to be shared.

*These are some of my favourite things to make and style.*

I love creating abundant platters filled with homemade dips, artisan breads, flavoured butters, pickles, preserves, and beautiful seasonal ingredients—food where presentation is as important as taste.

Ideal for families, friends and corporate gatherings, retreat arrivals, relaxed celebrations, or simply feeding a group without the need for a full sit-down meal.

Choose a favourite or combine a few to create a generous grazing table for your gathering.

Everything is freshly made, generously portioned and beautifully presented for sharing.

**Perfect for relaxed lunches, drinks and nibbles, arrival food, retreats and gatherings where everyone can help themselves.**
